

**HHSEGS (11-AFC-02)  
TESTIMONY OF C.R. MACDONALD**

# **VISUAL RESOURCES EXHIBIT 720**

## **PHOTO GALLERY**

**SECTION I. GLINT & GLARE**

**SECTION II: CHARLESTON VIEW**

## SECTION I. GLINT & GLARE

### Visual Resources: Photo 1

Aerial view of Genesis solar site under construction. Photo Source:

### Visual Resources: Photo 2

“The below photo is actual flash glare from the Nevada Solar One plant near Boulder City, Nevada. While this is a different technology, it still incorporated the reflective use of sun. Similar events can be expected from the HHSEGS Project.”

Source: Basin & Range Watch, HHSEGS PSA Comments, TN-66346, p. 4

### **Visual Resources: Photo 3**

Glint from Trout Canyon residences on Mt. Charleston can be seen across the entire Pahrump Valley. The white ridge in the middle is Hidden Hills. The HHSEGS would be sited in front of the ridge. 1/02/13.

### **Visual Resources: Photo 4**

Glint from PS20, a 20MW facility in Spain.

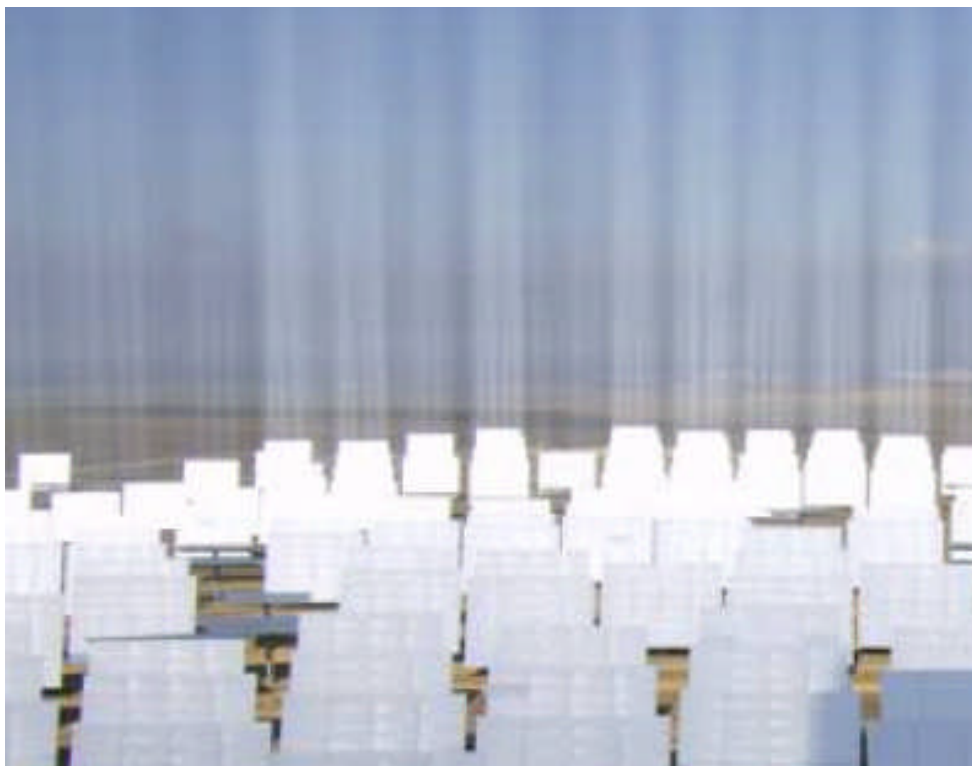

### **Visual Resources: Photo 5**

Beams of light from the heliostats shoot in different directions at PS10, a 10 MW facility.

### **Visual Resources: Photo 6**

Light streams up from the mirrors at PS10 obscuring the background view.

## SECTION II: CHARLESTON VIEW

### Visual Resources: Photo 7

Charleston View looking west from the CA/NV state line. Right: St. Therese Mission.  
Left: Charleston View. The proposed HHSEGS will begin slightly to the right  
of Charleston View and directly behind St. Therese. 1-02-13.

### Visual Resources: Photo 8

Charleston View looking east at Mt. Potosi on the Old Spanish Trail Highway/Tecopa Road.  
Rose Avenue is in the middle and St. Therese is visible in the background. 1-02-13.

**Visual Resources: Photo 9**

Charleston View residence 300 ft. east of the proposed HHSEGS property line looking north. 1/02/13

**Visual Resources: Photo 10**

View of Charleston View residence 300 ft. east of the HHSEGS boundary in background, Monitoring Well #3 test area in foreground. 1/02/13

### Visual Resources: Photo 11

View of residence known as CR1 in background, 950 ft. south of the HHSEGS boundary.  
Old Spanish Trail Highway/Tecopa Road is in foreground, dumpsters and  
community bulletin board in the middle. 1/02/13

### Visual Resources: Photo 12

Looking east at the residence known as CR1.  
The community mailboxes are in the foreground. 1/02/13.

### **Visual Resources: Photo 13**

View of Charleston View dumpsters adjacent to the Old Spanish Trail Highway/Tecopa Road looking east. St. Therese is in the background and the proposed HHSEGS will be sited on the left. 1/02/13.

### **Visual Resources: Photo 14**

Looking north directly into the proposed HHSEGS solar field and Solar 2's power tower. 1/02/13

### Visual Resources: Photo 15

Looking west. The dumpsters are in the background and the proposed project will be directly adjacent to the Old Spanish Trail Highway/Tecopa Road on the right. 1/02/13.

### Visual Resources: Photo 16

View of Carpenter Avenue looking northwest into the proposed HHSEGS project site. 1/02/13.

### **Visual Resources: Photo 17**

Looking east along Old Spanish Trail Highway/Tecopa Road at Rose Avenue, which sits directly across the Firewater Tank and the Orchard Well area. St. Therese can be seen in the distance. 1/02/13.

### **Visual Resources: Photo 18**

View of Rose Avenue looking south. Rose Avenue is the road KOP4 was taken from approximately 0.5 miles south from this location. 1/02/13.

### Visual Resources: Photo 19

View from Rose Avenue looking north at HHSEGS project site. Yellow cap of monitoring test well is visible in the background, Orchard Well is located about 300 ft. to the left. 1/02/13.

### Visual Resources: Photo 20

View of of Charleston View residence known as CR1 from Orchard Well. 12/20/11.

### **Visual Resources Photo 21**

Lone residence approximately 0.5 miles west of Charleston View looking southeast. Project site well in foreground, Old Spanish Trail Highway/Tecopa Road in middle. 1/02/13.

### **Visual Resources Photo 22**

Photo taken on top of ridge above the proposed HHSEGS project site looking Southwest. The greenery in the background is Charleston View. From this vantage point, Solar Plant II's Power Tower and heliostat field will be located just in front of Charleston View.

### **Visual Resources Photo 23**

Photo taken from west side of Pahrump Valley looking northeast. Old Spanish Trail Highway/Tecopa Road in foreground, dry lake in middle, town of Pahrump in background. 1/02/13.

### **Visual Resources Photo 24**

Photo taken from west side of Pahrump Valley looking east and overlooking Charleston View. Mt. Potosi is in the background. 1/02/13.

**Visual Resources Photo 25**  
Sunset at Charleston View on 7/31/12.

**Visual Resources Photo 26**  
Moonrise at Charleston View on 8/29/12.
